COMPETITION FOR NATIONAL AND INTERNATIONAL CROSS-DISCIPLINARY EXCHANGES - CREATE IN MILK QUALITY PROGRAM

The CREATE in Milk Quality
program is funded by

Travel grants will be awarded to students and fellows to conduct an exchange (an internship or a training workshop) with a national or international organization in the sector of academia, government or industry. These exchanges provide an opportunity to acquire new scientific and personal skills and novel experiences, and develop a broad professional network that will improve the quality of your research and open new avenues. These travel awards are intended for Undergraduate, Master's and Doctoral students as well as Postdoctoral Fellows. The competition is opened all year round.

General rules:

1. Must be enrolled at one of the participating universities: Université de Montréal, Université de Sherbrooke, McGill University, University of British Columbia, University of Calgary, University of Guelph, University of Prince Edward Island and University of Saskatchewan.
(A limited number of scholarships provided by *Les Producteurs de lait du Québec* may be awarded to students that are enrolled at other Universities in Quebec. For more information, please contact the program coordinator.)
2. Must have submitted an admission request to the CREATE in Milk Quality program (available at www.createmilkquality.org) and must be currently registered as an Undergraduate, Master's or Doctoral student in a university program or as Postdoctoral Fellow.
3. The applicant's research project must be in the field of bovine mastitis and/or milk quality.
4. The value and duration of the awards:

	Undergraduate/Master	Doctorate/Postdoc
Duration	1 month	Up to 3 months
Value	Maximum of \$3,000	Maximum of \$5,000

Eligible expenses include travel, accommodation, and living expenses. The expenses will be reimbursed upon reception of dated receipts and relevant documents.

Longer exchanges can be considered, but will be judged on the merit of the proposed exchange. An exchange should improve the student's training experience and should not delay the expected completion date of their degree.

Application (at any time during the year):

1. Selection criteria: Proposed host organization (30%), training experience/relevance of acquired skills to the research project (50%), and link to the Canadian Bovine Mastitis and Milk Quality Research Network research program (20%).

2. Documents to be submitted:

- a. Application Form, signed by the applicant and the supervisor.
- b. Estimate of travel costs (in PDF format, including both travel and accommodation costs).

The documents must be sent to the program coordinator, Josée Labrie, by email to josee.labrie@umontreal.ca.

For more information, please contact the program coordinator at josee.labrie@umontreal.ca or visit our website at www.createmilkquality.org.
